PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in SQL, Excel, Power BI, Tableau, and Python. Currently a Data Analytics Intern at Technosignia, with earlier Logistics Data Analyst Internship experience at YuvaIntern in data cleaning and data preparation. Built an interactive HR Analytics dashboard that turns raw data into clear, actionable insights. Seeking an entry-level Data Analyst role to apply data cleaning, data visualization, and analytical problem-solving skills.

TECHNICAL SKILLS

- **Data Analysis and Visualization:** Data Cleaning, Data Preprocessing, Data Visualization, Dashboard Creation, Reporting, Basic Statistics
- **BI Tools:** Power BI, Tableau
- **Databases:** SQL, MySQL, MongoDB
- **Excel:** Pivot Tables, XLOOKUP, VLOOKUP, IF Functions, Charts
- **Programming:** Python (Pandas, NumPy), C, C++
- **Tools:** VS Code, MySQL Workbench, Tally

INTERNSHIP EXPERIENCE

Data Analytics Intern | Technosignia | October 2026 – Present

- Cleaned and preprocessed datasets using Python (Pandas): handled missing values and duplicates, corrected data types, standardized text categories, and converted date columns.
- Explored datasets using Pandas and NumPy to check structure, data types, and data quality issues.
- Wrote SQL queries using SELECT, WHERE, ORDER BY, DISTINCT, JOINs, GROUP BY, and aggregate functions (COUNT, SUM, AVG) to retrieve and summarize data.
- Applied descriptive statistics (mean, median, mode, standard deviation, outliers, correlation) to understand patterns in data.
- Documented work in Python notebooks and SQL files with clear explanations.

Logistics Data Analyst Intern | YuvaIntern | 2026

- Worked with logistics route performance data to support data preparation and analysis.
- Performed data cleaning and preprocessing to improve data quality and consistency.
- Reviewed logistics dataset records to identify data issues and prepare data for further analysis.
- Documented data preparation tasks and work completed during the internship.

PROJECTS

HR Analytics Dashboard | Tableau | 2026 | Dashboard

- Developed an interactive HR Analytics Dashboard in Tableau to analyze employee data and identify key workforce trends.
- Created interactive visualizations and filters to track key metrics, including Employee Count, Attrition, Attrition Rate, Average Age, Average Salary, and Years at Company.
- Analyzed employee attrition across departments, job roles, age groups, education fields, salary slabs, and gender.
- Transformed raw data into meaningful insights through interactive charts and dashboards to support data-driven HR decision-making.

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation – Forage | MySQL Tutorial – Great Learning | Introduction to Data Mining – Simplilearn | SQL (Basic) – HackerRank | Data Warehouse Fundamentals – Mind Cluster | Python (AI Basics) | MS-CIT

EDUCATION

- **Master of Computer Applications (MCA)** | KBP College, Ishwarpur | 2026 – Present
- **Bachelor of Computer Applications (BCA)** | VPIMSR, Sangli | 2023 – 2026 | 77.23%

SOFT SKILLS

Communication | Team Collaboration | Analytical Thinking | Problem-Solving | Attention to Detail

ACTIVITIES

- NSS Volunteer
- Participated in Job Fair Management at college in collaboration with TCS and other companies
